

YouFID & Global Soap Project Europe present:

Innovative Multi-Stakeholder Solutions for Waste Reduction, Prevention and Recycling

Up to 50% of all food produced globally is never consumed. What's more, many simple goods that secure our basic health and well-being—from clothing to medicines to soap—are wasted at an alarming rate. Awareness is growing about the impact of such consumptive patterns, but how can we innovate creative solutions to address the reduction, prevention and recycling of waste?

Join us for an engaging discussion with contributions from:

Global Soap Project www.globalsoap.org

Portugese NGO Dari Acordar and the Zero Waste Movement www.dariacordar.org; www.zerodesperdicio.pt

FAO's SAVE FOOD and Food for the Cities www.fao.org/save-food/en; www.fao.org/fcit/en

WFP's Purchase for Progress www.wfp.org/purchase-progress

Thursday, October 17th 2013

18:30 – 19:45

Radisson Blu es. Hotel

Via Filippo Turati, 171, Rome, Italy
